How to Customize the Course Page  
A DEITutorial adapted from ANGEL® 7.3 Instructor Reference Guide

You can edit the contents and organization of the Course, Resources, and Communicate pages within ANGEL. This allows you to add different nuggets that are most useful for you and your students in the delivery of your course.

1. On the Course page, click Edit Page.

2. The editing screen will appear. Click Add Component.

A pop-up window will appear advising you that the activity is being processed.
3. Scroll through the components and check any that you want to appear on the Course page. For example, choose to add the Syllabus, Last Lesson (bookmarking), and Course Calendar.

You can also designate where the components will be placed:

And how they will appear:
You might want to experiment with different settings to see what works best for your course.

4. Click **Add Selected** when you are finished.

The nuggets have now been added.

You can drag and drop the various nuggets to place them where you want them on the page.

5. Click **Save** when you have finished.

The new components are now in place. Using **Edit Page**, you can rearrange the nuggets again until you are satisfied with the course components.
